

ANACOSTIA REVELS IN BRIGHT COLORS

Fresh Paint, Bunting and National Emblems Give "Dress Up" Appearance.

READY FOR CELEBRATION
PLANNED BY ASSOCIATION

Community Demonstration This Evening in Recognition of Public Improvements the Past Year.

Anacostia is all dressed. The suburb is in festive and entertaining mood. During this week fresh paint, bunting and flags have been lavishly spread on houses and residences along Nichols avenue, and here and there in other parts of the community. This is all in preparation for the community celebration this evening, designed by the Anacostia Citizens' Association in recognition of two million dollars' worth of public improvements within the last year, and to demonstrate that this suburb is a desirable place in which to live and do business.

The celebration will consist of a parade of decorated automobiles that will swing over into Washington as far as the business section. More than 125 automobiles have been entered, about a dozen of which are to compete for a prize of gold. Among those in the competition are several trucks from the Washington Steel and Ordnance Company, which has mounted "war brides" and is furnishing its own band.

This will make four bands contributing to the festivities, as Charles F. Rogers, chairman of the music committee, has engaged two and the Engineer Band is to give a concert in Logan Park.

Others in Competition.

Others in the decorated car competition are Gude Bros., the Potomac Electric Power Company, William Walther, F. H. Kramer and J. T. Harrison.

In the parade a pretty feature will be eleven trucks laden with children, each waving an American flag. Seven of these trucks will be occupied by children from the local schools, one by children from the German orphanage, one from the Bell Home and two by Boy Scouts.

The program also includes a ball game, motor boat race, band concert, a country circus and speaking by the District Commissioners and other officials. Dancing will close the festivities.

Motor boat races will be held at 5:30 o'clock, two classes showing, starting from Anacostia bridge and racing to Washington barracks and return. Five decorated boats will contest for prizes, making four laps on this course. A score of motor boats will make six laps in this course. There is a silver loving cup prize for this event.

Park Electrically Lighted.

Fairlawn Park, which has been placed at the disposal of the community, will be the scene of the community festival. It has been strung with electric lights by the Potomac Electric Power Company. Some novel displays in electric lighting have been installed and tested so that everything will be working properly this evening. Here also will be shown an elaborate fireworks display.

Five prizes will be awarded the best decorated machines in the parade. First prize, \$10; second prize, \$5; third, \$3; fourth, \$2, and a special prize of \$10 for the resident of Anacostia having the most attractively decorated car.

To Report at Logan Park.

The machines entered in the parade will report at Logan Park, Anacostia, at 6 o'clock, where they will be inspected by the judges. At 7 o'clock the parade will start. The judges of the contest are Melvin C. Hazen, chairman; H. E. Duckstein, Howard S. Fisk, S. S. Grogan and M. W. Sohn.

The judges for the motor boat races have been selected from the navigation bureau of the Navy Department. The chairman of the motor boat events is A. E. Beck.

The general committee consists of William J. Lattin, chairman; Adolph Gude, Maurice Otterback, R. A. Pyle, J. J. Mundell, W. W. Tolson, Hiram O. Butler, Albert E. Beck, Charles A. Roberts, George Frazier, Charles A. Stevens, George Drem, James W. Marbury, A. E. Burry, Charles E. Watson, T. D. Mudd, W. T. Anderson, L. W. Thompson, Herbert R. Harr, S. M. Frazier, S. Frazier, William Marshall, William C. Jones, William Mushake, J. C. Winterwerp and Alozo Stone.

Health Committee Lifts Ban.

Alexandria's alleged epidemic of scarlet fever has run its course and the health committee of the city council, after hearing the testimony of a number of physicians last night at a public meeting, decided to lift the ban on schools and Sunday schools. Alexandria's schools will reopen Monday morning and its Sunday schools will reopen Sunday.

The testimony of the physicians who attended the meeting was to the effect that the disease is on the wane, no new cases having recently been reported. The lid was put on these places last Friday afternoon, although the motion picture establishments did not close until Saturday and reopened last Tuesday.

Arguments in the case of certain consumers against the Alexandria Water Company were made today in the corporation courtroom before Charles M. Brown of Roanoke, Va., representing the state corporation commission, and the consumers, and Attorney Gardner L. Boothe for the company.

In the corporation court a decree has been entered in the suit of T. J. Fannon and others against the Virginia Safe Deposit and Trust Corporation, now defunct, directing Howard W. Smith, receiver, to pay the sum of \$1,000 to Henry Talbot McQueen and James L. McQueen, representing the extent of the trust company as surety on a bond. C. Keith Carlin represented the complainant and the trust corporation was represented by S. G. Brent.

Candidates' Names Off Ticket.

The name of City Councilman John T. Harrison, candidate for the board of aldermen from the third ward, will not appear on the ticket in Tuesday's election because Mr. Harrison was ill.

Nicholas Durdella, a car builder, forty-seven, of Curtis Bay, Baltimore, was crushed to death when he was caught between a steel hopper car on which he was working in the yards of the Baltimore and Ohio railroad.

THE REGAL

The Most Popular Shoe in the World—Why?

Regal Advertising, however brilliant, could not have made Regal "the most popular shoe in the world." The cause lies deeper—Organization, Standardization, Specialization to produce custom styles at people's prices.

Regal started with one store which has multiplied to a hundred. It has been the way-blazer in shoe values and the crusader in shoe-store service.

Regal sells more shoes and better shoes at popular prices than any shoe organization in the world.

The tailoring of a suit determines its value and milady who pays to \$40.00 is generally a connoisseur. With the certainty of the suits here meeting the keenest criticism and with the guarantee that the silk linings will give satisfactory service for two seasons, the hope is that the reduced price—\$10.00—will not create an unfavorable impression, but, rather, that the Palais Royal clearing sale of 1916 is being associated with prices reduced to a minimum rarely linked with high-class suits.
